<b>Fuel tank</b>	135 L
<b>Double steering</b>	No
<b>Other equipment</b>	220-volt shore power supply, Radio CD/MP3, Terrace with garden furniture on request

A low price need not mean lower standards of comfort !

This boat offers high stability (width of 3.40 m) and a remarkably large living space for a unit providing this kind of value for your money.

Featuring modern design, it offers an interior in contemporary colours. This is a model which is simple yet elegant.

Its living quarters (surface area of 7 m<sup>2</sup>) contain a cockpit with a two-seater bench, a table, a bench seat that can be converted into a double-sized bed, a kitchenette with a 130 L fridge, a hob and oven and a newly added sliding glass sunroof that was inspired by automobiles and ocean boats.

The indoor features include a radio/CD/MP3 player, a shore power supply, etc.

The fore cabin and bathroom offer generous space for 2 people, with a surface area of 6m<sup>2</sup> and numerous storage areas including a wardrobe, shelves and alcoves.

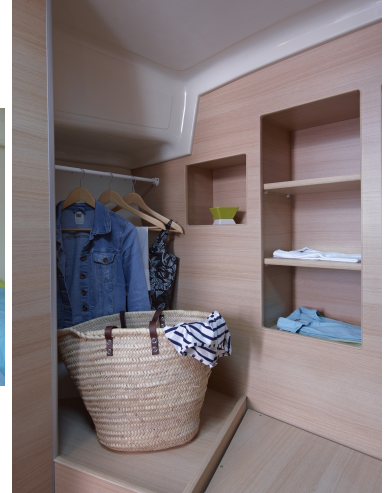

To the aft, the terrace (surface area of 5.5 m<sup>2</sup>) is accessible via a large sliding bay window level with the living quarters.

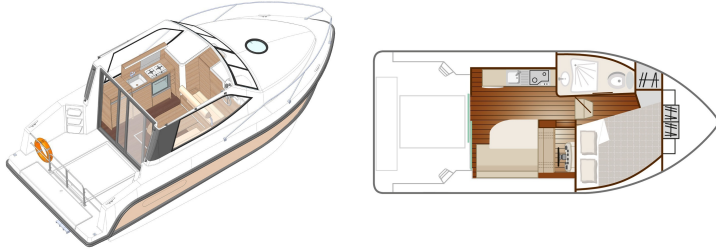

The aft gate offers a wide, clear view of the waterway, giving the holidaymaker the feeling of really living on the water. This gate leads to the aft platform that facilitates boarding and disembarking the boat.

The boat's 20 hp motor reduces its fuel consumption, making it more eco-friendly!

Finally, its low air draft (approx. 2.60m) enables simple manoeuvring, and easy passage under bridges... which will delight novice sailors!

- Partition walls: water-repellent melamine chipboard, light oak colour
- Counter-moulded ceiling in polyester, ivory RAL 1013 colour
- Single-unit shower room, polyester, ivory RAL 1013 colour
- PVC floor covering in "medium walnut" colour
- Hull bottom frames and structures: joinery deal and CTBX plywood, 18mm
- Saloon floor in CTBX 40mm
- Mattress and seat top in high-density 10 cm thick foam, covered in leatherette

### FITTINGS

- Handrail in stainless steel tubing, diameter 20×1.5
- 1 fore railing, height 45 cm, in 2 parts with fore passage (stainless steel tube Ø23×1.5)
- 1 aft guardrail with 2 opening gates (stainless steel tubing, diameter 23×1.5)
- 4 x 200 cleats (anodised alu)
- 4 navigation lights
- 2 PVC sheer rails attached to the hull, incl. 1 at level of hull / deck connection
- 2 gangway supports on the aft platform
- 1 aluminium gangway
- 1 stainless steel boarding ladder, 3 integrated sliding parts
- 1 hook housing

### MOTORISATION

- NANNI diesel N3.21 in-board mechanical shutter (shaftline) with flexible coupling
  - 135 litre plastic fuel tank
  - Shaft Ø 30 mm
  - Control unit
  - 1 hydraulic steering system
  - Cockpit:
    - 1 mono-lever gas compartment, 1 tachometer, 1 fuel indicator, 1 hour meter, 1 engine oil temperature indicator, 1 battery-level indicator and 1 waste water tank level indicator.
- 

## **INTERIOR EQUIPMENT**

### **Saloon**

- 1 two-place pilot seat
- Bench, width 1.40 m, convertible into a 140 x 190 cm double bed
- 1 table in melamine chipboard, oak colour (detachable with runner system and folding base)
- 1 x 130 litre refrigerator with freezer (12 V power supply)
- 1 stainless steel sink with draining board
- 1 twin-hob cooker
- 1 kitchen unit in oak-coloured water-repellent melamine chipboard (aluminium handle)
- 1 oven (gas-powered)
- 1 automatic bin door under pilot seat
- 1 radio CD-MP3 USB player – 2 speakers
- Fabric curtains with blackout lining
- 220 V socket
- USB port

### **Cabin**

- 1 bed with 10-cm thick high-density foam mattress, leatherette-covered
- Under-bed storage
- Wardrobe
- Storage units
- 1 round deck hatch
- Fabric curtains with blackout lining

### **Bathroom – WC**

- 1 manual marine WC
  - 1 beige polyester washbowl with mixer tap and shower head
  - 1 storage unit
  - 1 mirror
  - 2 coat hooks
- 

## **WINDOWS – OPENINGS**

### **Saloon**

- 1 aft sliding bay window, 2 casements in 8-mm clear laminated glass
- 2 side bay windows with green-tinted safety glass
- 1 curved safety glass windscreen, 5 mm, in 4 sections, incl. 2 opening
