## Quattro Fly C

442,500.00€

The Quattro Fly C is a river cruiser that ideally accommodates two couples or one couple with two children.

The Nicols Quattro Fly C is 13 metres long and is the shortest model from the Fly range produced in the Nicols boatyards. This model was launched in 2021 to round out the Fly range and offer maximum comfort for four people.

Thanks to its bow propeller, **piloting the Quattro Fly C is quite easy.**

The elegant design of this Fly model was an immediate success!

This river cruiser comes with two cabins and two bathrooms which makes it ideal for accommodating two couples or one couple with two children. It offers the highest-level of comfort you can find on the river tourism market with a large fridge, hob and oven, satellite television, radio/CD/MP3 player, 220-Volt shore power supply, a generator to benefit from those 220 Volts even when out on the water and air conditioning which is a welcome addition on the Canal du Midi!

The boat has a covered aft terrace with garden furniture and access to the upper deck where you will find a dining area with an outdoor kitchen (sink, plancha grill) **under the shade of a collapsible bimini top**, a second outdoor cockpit and two deck cushions for lounging or sunbathing. As with the other boats in the [Estivale range](#), swimmers will be delighted to find a boarding ladder and a deck shower.

Don't wait any longer to cast off on this licence-free houseboat with extraordinary features!

**Technical Description**

## MATERIALS

- White-coloured polyester for deck and flying bridge
- White-coloured polyester and sea-green stripe for hull

## INTERIOR MATERIALS

- Partition walls: water-repellent melamine chipboard, "light oak" colour, 16 mm
- Counter-moulded ceiling in polyester, ivory RAL 1013 colour
- Single-unit shower room, polyester, ivory RAL 1013 colour
- PVC floor covering in "medium walnut" colour
- Hull bottom frames and structures: joinery deal and CTBX plywood, 19 and 40 mm
- Mattress and seat top in 15 cm thick Bultex foam, covered in leatherette

## FITTINGS

- Handrail in stainless steel tubing, diameter 20
- 1 fore railing in 2 sections with intermediary tubing and fore passage (stainless steel, diameter 23)
- 1 aft guardrail with 2 opening gates (stainless steel tubing, diameter 23)
- 4 reinforced chandeliers
- 6 single chandeliers
- 2 rows of railings (sheathed stainless steel) to starboard and port side
- 6 x 250 cleats (anodised alu)
- 4 navigation lights
- 3 black PVC sheer rails attached to the hull, incl. 1 at level of hull/deck connection
- 2 gangway supports in opening of side gates
- 1 aluminium gangway
- 1 roller support for anchor chain
- 1 electric windscreen wiper
- 1 audio warning device
- Fly equipped with handrails

## MOTORISATION

- 1 x 50 CV in-board diesel motor (shaftline) equipped with a hydraulic shutter with flexible coupling
- 1 x 2-station hydraulic steering system
- *Main cockpit (saloon)*: 1 mono-lever gas compartment, 1 tachometer, 1 fuel indicator, 1 hour meter, 1 rudder angle indicator, 1 engine oil temperature indicator, 1 battery-level indicator and 1 waste water tank level indicator.
- *Secondary cockpit (flying bridge)*: 1 mono-lever gas compartment, 1 tachometer, 1 rudder angle indicator.
- 1 engine hold with sound-insulating foam

## BOW THRUSTER

- 80 kg fore thruster
- 80 kg aft thruster
- Single control for both thrusters

## GENERATOR

- 6 kW

## WASTE WATER STORAGE

- 2 stainless steel double tanks with a total capacity of 400 litres
- 1 deck drain for emptying tanks

## INTERIOR EQUIPMENT

### Saloon

- 1 two-seat "pilot" bench
- 1 windscreen demisting fan heater
- 1 "C"-shaped bench, convertible into a double bed
- 1 beige coloured polyester table
- 1 electric refrigerator / freezer, 220 L, 220 volts
- 1 single-bowl sink (100 x 60) with draining board and mixer tap
- 1 x 4-hob hotplate with piezzo electric ignition
- 1 kitchen unit in 16-mm thick "light oak" coloured water-repellent chipboard
- 1 oven (gas-powered)
- 1 automatic bin door
- 1 x 22" LCD colour TV with DVD player – Satellite reception
- 1 microwave (220 V power supply)
- 1 Bluetooth FUSION radio – USB player – 2 speakers
- Dishwasher, 10 place settings
- 220 V socket
- USB port

### 2 fore cabins

- 1 140x190 double bed convertible into 2 single beds with 15 cm thick foam mattress
- Storage compartment under bed
- Wardrobe
- Storage units
- 2 opening portholes
- 2 square opening deck hatches
- Direct access to shower room and WC
- Mosquito screen/roll-up blind combination
- LED bedside lamps
- 220 V socket
- USB port

### 2 shower cubicles – WCs

- 1 full round shower with access via 2 sliding doors in green-tinted Plexiglas and thermostatic tap
- 1 ceramic electric WC
- 1 beige polyester washbowl with mixer tap
- 1 storage unit
- 2 coat hooks
- 1 sliding porthole with opaque film on window and mosquito screen
- 1 solar ventilator
- LED spotlighting

## EXTERIOR EQUIPMENT

- 1 sliding sun awning
- 1 deck shower head accessible from aft platform
- Under-fly lighting with LED spotlights
- 1 swimming ladder
- 2 hook housings
- 1 fixed stairway for flying bridge access
- 2 spotlights integrated in the hull

## FLY EQUIPMENT

- Large bench seat moulded into the fly
- Sun lounger with folding backrest
- Pilot bench and co-pilot bench
- LED ambient lighting
- Gas plancha grill
- Sink
- White polyester panel convertible into a large sunbathing deck
- Glass/can holder
- Remote control for the radio
- Waterproof speakers

## WINDOWS – OPENINGS
